Divine Anum

Senior Frontend Engineer

Skilled and passionate professional, proactive and experienced in cross-functional collaboration, with 5 years of experience delivering high-quality web solutions across healthcare, education, and transportation.

RELEVANT EXPERIENCE

Senior Frontend Engineer – Brick and Grey Developments

June 2026 - September 2026 | Remote (Contract)

- Designed a full multi-page website in Figma using the client's brand guidelines, establishing a scalable UI framework and developed the core frontend infrastructure using Reactjs and Tailwind CSS.
- Optimized for SEO by utilizing Server-Side Rendering with React Router, leveraging semantic HTML and lazy-loading media assets.
- Built a custom Content Management System with Sanity, ensuring seamless rendering of property listings, image galleries, and other metrics and integrated custom lead-capture forms with EmailJS.

Senior Frontend Engineer – *La Ruche Health*

Jun 2023 - Nov 2025 | Remote (Part-time)

- Led the development of a multilingual EMR system from scratch using React and i18next, designing a domain-based architecture to deliver **50+** complex pages and collaborating closely with designers and backend engineers to translate healthcare workflows into clean, scalable interfaces.
- Introduced a query key factory pattern for React Query to standardize cache keys across the application, preventing collisions and improving cache invalidation consistency as the product scaled.
- Built a high-fidelity video consultation platform using Agora, enabling secure, real-time communication between doctors and patients.
- Engineered a multilingual patient-facing appointment booking platform with React, optimized for conversion, international usability, and seamless handoff to the company's mobile app; scaled to **2,700+** weekly visits during peak months.
- Rewrote the booking platform from a React SPA to Remix to enable server-side rendering and dynamic Open Graph metadata per doctor profile, significantly improving social media link previews and increasing referral-driven engagement.
- Supervised a junior engineer, guiding contributions and code reviews across multiple codebases and helping them successfully deliver a standalone analytics dashboard.
- Contributed significantly in the company securing over **$160,000** in grants and awards, participating in VivaTech Paris 2024 as one of the most promising startups selected by Ivorian authorities, and winning the **2025 Galien Prize Africa** in **3** categories.
