Divine Anum, Frontend Engineer

Skilled and passionate professional, proactive and experienced in cross-functional collaboration, with 5 years of experience delivering high-quality web solutions across healthcare, education, and transportation.

RELEVANT EXPERIENCE

[Greenroute Ghana, Remote\(Contract\)](#) – *Frontend Engineer*

SEPTEMBER 2025 – NOVEMBER 2025

- Built a modern, visually polished website using React, showcasing EV models with high-quality imagery and advanced filtering capabilities.
- Developed a robust, custom Sanity CMS with multiple interconnected content types to manage detailed EV car data.
- Attracted over **1,300** unique visitors and more than **2,300** total visits since launch.

[La Ruche Health, Remote\(Part-time\)](#) – *Senior Frontend Engineer*

JUNE 2023 – NOVEMBER 2025

- Led the development of a multilingual EMR system from scratch using React and i18next, designing a domain-based architecture to deliver 50+ complex pages and collaborating closely with designers and backend engineers to translate healthcare workflows into clean, scalable interfaces.
- Designed and implemented role-based access control at the UI layer, tailoring workflows and data visibility for doctors, nurses, and administrative staff to ensure compliance and reduce interface complexity.
- Introduced a query key factory pattern for React Query to standardize cache keys across the application, preventing collisions and improving cache invalidation consistency as the product scaled.
- Built a high-fidelity video consultation platform using Agora, enabling secure, real-time communication between doctors and patients, similar to Google Meet.
- Engineered a multilingual patient-facing appointment booking platform with React, optimized for conversion, international usability, and seamless handoff to the company's mobile app; scaled to **2,700+** weekly visits during peak months and supported international payments.
- Rewrote the booking platform from a client-rendered React SPA to Remix to enable server-side rendering and dynamic Open Graph metadata per doctor profile, significantly improving social media link previews and increasing referral-driven engagement.
- Supervised a junior engineer, guiding contributions and code reviews across multiple codebases and helping them successfully deliver a standalone analytics dashboard.

- Contributed significantly to the success of multiple product launches, helping the company secure over **\$160,000** in grants and awards, participate in VivaTech Paris 2024 as one of the most promising startups selected by Ivorian authorities, and win the **2025 Galien Prize Africa** in **3** categories: Best Pharmaceutical Product, Best Traditional Therapy Product, and Best Biotechnology Product.

Young and Wise Africa, Remote(Contract) – *Frontend Engineer*

FEBRUARY 2025 – AUGUST 2025

- Built a visually appealing, multi-page website designed to educate and engage youth on sexual and reproductive health.
- Developed a robust Sanity CMS to manage blogs, events, podcasts, and other dynamic content.
- Implemented a social media-inspired feature that allows the company to publish posts and enables users to like and comment anonymously.
- Attracted over **2,200** unique visitors and over **3,000** total visits since launch.

EDUCATION

University of Ghana – *BSc Computer Science*

2018 – 2022

TECHNICAL SKILLS

React, Remix, Typescript, Sass, Tailwind, Styled components, GSAP, React Query, GraphQL, Zustand, Figma, Git, GitHub, MongoDB, Postgres, Supabase, Strapi, Vercel, Fly.io, Prisma, Sanity.

SOFT SKILLS

Technical communication, Agile team collaboration, User-centric thinking, Fast learning, Adaptability, Ownership & accountability, Analytical problem solving, Comfortable with ambiguity.
